Re: **No** to House Bill 5205

**PLEASE SUPPORT TRULY CLEAN RENEWABLE ENERGY FOR MICHIGAN
VOTING NO ON BILL 5205.**

It has been brought to my attention that on December 2, 2014, the *State Legislature of Michigan* will be voting on a **bill (5205)** that **would allow some of the dirtiest and most polluting sources of energy to be counted as clean, renewable energy**

I am outraged and saddened at the same time. I am outraged to learn that our political leaders are a part of the problem and not the solution. I **expect the leaders to protect the best interests of the people**, which include affording us a sustainable environment and future. And I am saddened to think that we have gotten so far from humanity and looking out for the greater good, that we will do anything for convenience and personal gain today while tomorrow is sacrificed and seen as irrelevant.

Please take the time to consider the human race and the future of your kids and even your family today. **You are in a position of power**, I urge you to use it wisely. Yes we all must pass from this realm of consciousness someday, but I would be to rest in peace, knowing **you did what was right** for all and for the better good of the world you were privileged to see.

I sincerely plead with you to Vote **NO** to HOUSE BILL 5205.

Thank you in advance for making the right decision.
